

Power assist device

# SmartDrive MX2+

permobil

## On-demand power assist

Pushing a manual wheelchair can put stress on your shoulders and lead to serious future issues. SmartDrive's seamless power assist has been proven to reduce up to 81%\* of your pushes and minimise repetitive stress, allowing you to focus on the things that matter.

\*based on data collected from SmartDrive's SmartEvaluation App

Multiple ergonomic handles to quickly attach to almost any manual wheelchair

Easily removable, making it great for transportation

Various control options to power your push, your way

OmniWheel's patented design engages and stays engaged in any position, maintains optimal traction, and climbs up to 10 degree slope (17% inclines)

Lightweight power assist weighing in at 6kg

# SwitchControl

SwitchControl is a simple way to control your SmartDrive with the push of a button. You can use SwitchControl in momentary or latched mode and optionally, attach an external switch with a custom mono jack option.

## **Momentary**

Your SmartDrive will engage for as long as you hold either Switch.

## **Latched**

Press and hold either Switch to set your cruise speed. When you want to stop, simply tap the Switch and hold on to your wheels.

## **SwitchControl with Mono Jack Option**

Use any external mono jack switch to operate your SwitchControl; no programming required.

**Buddy Button with  
extended mount and  
SwitchControl with  
mono jack**

## Premium wearable controllers

### Complement your wired controller with a premium wearable device!

You can use your own Apple Watch or the Samsung Galaxy Watch to control your SmartDrive.

- Fast and simple setup
- Increased screen visibility
- Improved battery performance
- Free app from App Store or Google Play Store
- Refer to our website for full list of compatible wearables
